Utrecht	3511 – 3512 – 3513 – 3515 – 3515 – 3551 - 3561
Venlo	5911

## Additional remarks

- For the zip code above additional surcharges apply because of the additional transit costs. For more information consult: 'Conditions and surcharges 2023'.
- For these, and possible other distribution zones, there might be different transport costs that might apply. This is dependent on shipment size, accessibility of the location (for example by using a smaller vehicle), weight restrictions and clearance heights. These restrictions can change regularly by the local authorities.
- In many cases the transport to the inner city or environment restriction zone will be transported with a box truck. In many cases it is not possible to reach the destination by truck+trailer. Would you please be so kind to take this into account when entering the order into the webportal? Thanks in advance.
- Maximum height is 220 cm including pallet
- Chain Logistics B.V. retains the right to change the surcharges in the meantime and/or change and add zip codes based on the ever evolving restrictions.
